

BHARAT KUMAR

Business Intelligence and Analytics Engineer

+91 8527283881 | bharat852728@gmail.com | LinkedIn | Portfolio

Microsoft Certified Power BI Data Analyst with 4.5 years of experience designing scalable BI Solutions, automating ETL Pipelines, and building high-performance dashboards. Strong expertise in SQL optimization, advanced DAX, Python automation, and KPI-driven analytics. Proven track record of reducing reporting time by 40% and improving operational decision-making efficiency by 25%.

CORE SKILLS: -

- Power BI (Advanced DAX, Data Modeling, Performance Optimization)
- SQL (Window Functions, CTEs, Query Optimization, Stored Procedures)
- Python (Pandas, Selenium Automation, Data Validation)
- ETL Pipelines & Data Automation
- Star Schema & Fact-Dimension Modeling
- Excel (Advanced Formulas, Pivot Tables)
- Stakeholder Communication & Business Analysis

PROFESSIONAL EXPERIENCE

DATA ANALYST

LAGOZON TECHNOLOGIES PVT LIMITED

Sep 2022 – PRESENT

- Designed scalable Power BI dashboards tracking 50+ KPIs across sales and operations.
- Automated ETL workflows using Python, reducing manual effort by 40%.
- Developed optimized SQL stored procedures improving report performance by 30%.
- Collaborated with stakeholders to translate business needs into scalable BI solutions.
- Improved dashboard performance via optimized data modeling and reduced cardinality.

MANAGEMENT TRAINEE (DATA & BI)

HITACHI SYSTEMS INDIA PVT LTD

Sep 2021 – SEP 2022

- Built structured star-schema data models for enterprise reporting.
- Developed interactive dashboards for business performance monitoring.
- Created Python-based validation scripts to enhance data accuracy.
- Assisted in Django-based internal reporting tool development.

SELECTED PROJECTS

- **Manufacturing Industry** – Production & Quality Analytics | *Tools: Power BI, Python, SQL*
 - Designed and implemented KPI dashboards to analyze production workflows, tracking over 50 key metrics; streamlined reporting processes reduced analysis time by 60%.
 - Automated monthly operational reports using SQL stored procedures. Develop and maintain interactive reports and dashboards for business performance tracking.
- **FMCG Industry** – Sales & Distribution Insights | *Tools: Power BI*
 - Developed dashboards to monitor regional sales performance and identify distribution bottlenecks.
 - Assisted in web application development using Django for internal reporting tools.
- **Beverage Industry** – Market & Pricing Analysis | *Tools: Python, Data Analysis*
 - Built Python scripts for analyzing market trends, competitor pricing, and demand patterns.
 - Delivered insights that supported data-driven pricing strategies.

EDUCATION

Master of Computer Application (MCA) | GURUGRAM University

2020 -2022

Bachelor of Computer Application (BCA) | MAHARASHI DAYANAND University (MDU)

2017 -2020

CERTIFICATION

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)

Sep 2024
